#### Why should I choose Payless Power prepaid electricity?

In addition to our low prepaid electricity rates, Payless Power's does not charge unnecessary fees that the competitors might. This includes ~~no disconnection fee no reconnection fee, no credit card payment fee~~ and no fee to talk to a live representative.

**This means no billing surprises for you!**

Connect your service today for as low as ~~\$50\*~~ with our partial payment option.

Call 888-620-3785 for details

~~\*\$50 partial payment option is based on a 1+ bedroom apartment.~~

## Advantages of Prepaid Energy

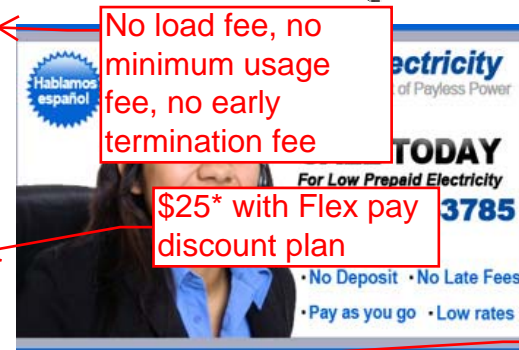

**Prepaid energy** service differs from regular post-pay energy service in that the customer receives a bill from the provider before the beginning of the service period.

Prepaid vs Post-paid electricity service comparison outlines the benefits of prepaid electricity vs. post-pay.

Type of Energy	Deposit	Credit Check	Contract?
Prepaid	No	No	No
Post-paid	Yes (usually)	Yes	Varies

In addition to no deposit, prepaid electricity customers are not required to pass a credit check. Why? Because credit checks and deposits are methods used by post-paid energy companies to ensure reliable payments. Companies that offer prepayment do not need these methods to ensure services will be paid.

\*Minimum balance to start service is \$50. \$25 start up includes \$25 instant credit which is subject to change

#### Prepaid electricity with Payless Power has many advantages.

**Free \$25 Credit**

- Notifies you daily of your usage instead of only when you run low or waiting till the end of the month
- Paperless notificatins by text or email
- Low prepaid KWH rates Flexible payments
- Payment assistance available when needed

**\*Up to \$0.04 Discount on our KWH rate\***

**Payment amount TDU Customers actual Daily readings**

#### Prepaid energy bills are based on several factors:

- ~~The past twelve months' historical usage at the residence~~
- Size and type of dwelling
- Customer's actual previous individual monthly readings
- Load Profile of premises as defined by the Electric Reliability Council of Texas - \*ERCOT

**Load fees**

Payless Power is dedicated to our customers. We do not want our customers pay for more electricity than they use. Where other companies may intentionally charge hidden fees like ~~reconnection fees, cancellation fees, credit card payment fees,~~ and even fees to talk to some one about your account, Payless Power refuses to follow suit. Payless Power offers the most competitive pre-paid home electrical service.

**minimum usage fees**

\*ERCOT serves as a mediator between power marketers, generators and providers, ensuring both accurate and b reliability.

**\*Discount requires minimum payment and is subject to change**
